

# Crowdfunding for Infrastructure Projects Financing: Lesson Learned for Asian Countries

Presented for:

Specialty Conference

"Fintech to Enable Development, Investment, Financial Inclusion, and Sustainability"

24 September 2020

Nika Pranata, Nur Firdaus, Erla Mychelisda, Achsanah Hidayatina Economic Research Center, Indonesian Institute of Sciences OJK Institute, Indonesia Financial Services Authority (OJK)

#### INTRODUCTION

## **Benefits of Infrastructure Projects**

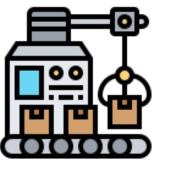

JOBS

Jobs creation

Cost reduction

Enhance competitiveness

Increase productivity

Gaps

Requires a lot of capital investment

- USD 57 trillion up to 2030 (McKinsey)
- USD 1-1.5 trillion of financing gap in infrastructure (G20)

Unbankable:

- High risk (macroeconomic and political risk)
- Long payback period
- Mismatch between offered investment instrument and the requirements of investors
- Etc.

Source: Kessides (1993), Cockburn, Dissou, Duclos, and Tiberti (2013)

#### THE NEEDS FOR ALTERNATIVES SOURCES OF FINANCING

# S S

Alternative source of funding

Diversified investors

Various types of investment instrument

### THE EMERGENCE OF FINTECH

- Innovative
- Digital technology
- Borderless
- Minimize asymmetric information

Remarkable development of P2P lending in Asia:

- In Indonesia it has grown more than 15,000% in only 3 years (2016-2019)

## HOWEVER,

Crowdfunding is not popular in Asia especially for commercial/productive purposes.

It is widely used for charity purposes

# The characteristics of Fintech +

Raising small number of funds

Raised from many funders to many individuals/businesses/projects

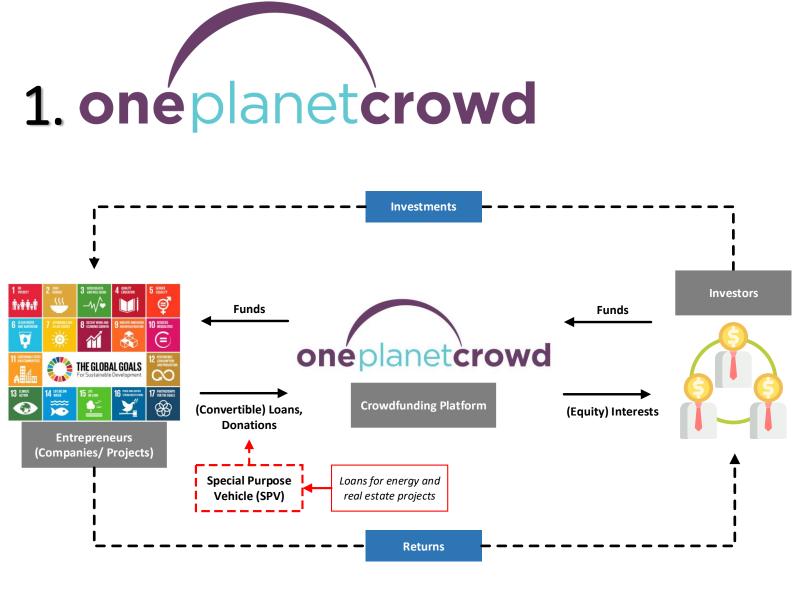

Various types of investment instruments including:

- Donation based
- Reward based
- Equity
- Debt
- Hybrid

CROWDFUNDING PLATFORMS FOR INFRASTRUCTURE PROJECT IN THE EUROPE AND AMERICA

Source: Oneplanetcrowd (2020)

- Based in the Netherlands, founded in 2012
- Projects related to social sectors and/or sustainable development goals (SDGs)
- 3) One of the pioneers and the largest in Europe
- 4) 'Impact investing' with attractive financial returns
- 5) Investors target: individual and business investors
- 6) Offering two types of investment with different return and risk:
  - a. Loan (interest rate: 4-10% p.a.), Duration: 1-10 years, Repayment Mechanism: linear, bullet, annuity, Purposes: SME loan, Energy and infrastructure loan
  - b. Convertible loan (equity based): high return and high risk
    Discount (15%-30%) for conversion
    Purpose: a young, fast-growing company (start-up)

# Performance per March 2020

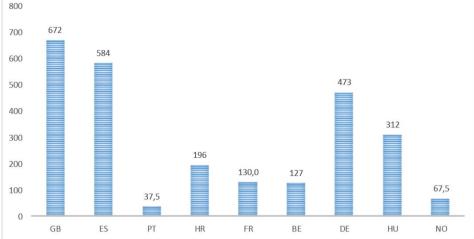

- Initiated in 2012, established in 2014
- Co-founded by the Intelligent Energy Europe Programme of the European Union
- The first European crowdfunding platform for European citizen investment in renewable energy source (RES) projects.
- Cooperates with platforms that working to promote sustainable energy projects
- Until now, there are 33 companies in 20 countries having a coalition
- Coverage: EU (cross-border)
- Offer investment opportunities with various financial instruments to firms and individuals (citizen)

No	Business Model	Description	Risk Level	Return Type
1	Cooperative: Equity	A company that is jointly owned by its members. It can finance the project with a combination of debt and equity from their members as well as from outsiders (bank loans, grants, etc.).	Medium	Dividends or interests in the case of deposits
2	Corporate Firms or Companies: Equity	Investors provide funds to the project in exchange for shares.	High	Dividends and growth of capital invested
3	Cooperative: Equity/ Customer	Cooperatives sell green energy to their members in which the members (customers) financing with the price they paid for the energy.	Low (the deposit/ stock is refundable)	Green energy (no monetary return)
4	Mezzanine Financing	A hybrid funding that combines features of debt and equity, mostly through subordinated debt and less frequently, preferred stocks.	Medium-high	<ul> <li>Coupons (interests)</li> <li>Dividend</li> </ul>
5	Debt: Bonds	fixed-income securities that incorporate a part of a collective credit constituted by a corporation.	Medium	Coupons (interest)
6	Debt: Loans	Investors lend their money to the project and get paid in return over a period of time.	Low-medium	Interests
7	Donation	Investment of money to a project by individuals for charity, without expecting a material reward.	Negligible	Non-material reward
8	Reward	Donors/ funders receive a material reward as an acknowledgement of their support but in a lower amount than the money they donate.	Negligible	A material reward, prize or gift
9	Crowdsourcing	A person or institution participate by voluntary to complete a task (not with money)	Negligible	Material or non- material reward

Performance Indicator	Amount

## COONCERSENCE BLENDING GLOBAL FINANCE Market-rate Private Capital Blended Blended

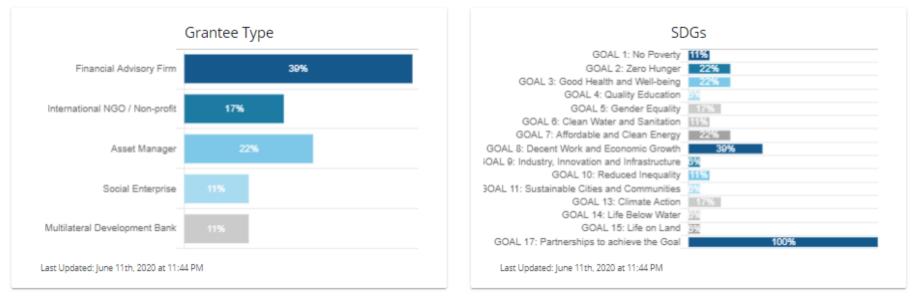

Mobilizing Development Funding (Public & philanthropic funders)

- Based in Canada, founded in 2015
- Launched and designed by Canada's Department of Foreign Affairs, Trade and Development (DFATD), the WEF, Dalberg Global Development Advisors, and the Global Development Incubator
- USD 18.5 million from DFATD for catalytic funding
- The global network platform for blended finance
- Aims to reduce the funding gap of UN Sustainable Development Goals (SDGs) → USD 2.5 trillion annually
- Most of its fund beneficiaries are developing countries.
- Using grant from governments or philanthropic organizations as catalytic to lower investment risk and improve the financial return in order to attract investment funds from private institutions.
- Networking and collaborations of several actors from the public, private, philanthropic funds, and sponsors
- The member includes Melinda Gates Foundation, the Government of Ethiopia, MasterCard, Standard Chartered, Rockefeller Foundation, and other stakeholders

No	Structure	Description
1	Concessional capital	Public or philanthropic investors provide funds on below-market terms within the capital structure to lower the overall cost of capital or to provide an additional layer of protection to private investors. In this scheme, concessional fund acts as seed capital to attract private investment.
2	Risk insurance	Public or philanthropic investors provide credit enhancement through guarantees or insurance on below-market terms. This scheme aims to lower the risk for private capital.
3	Technical assistance funds	The transaction is associated with a grant-funded technical assistance facility that can be utilized pre- or post-investment to strengthen commercial viability and developmental impact. Grant funding from public or philanthropic used for investment capacity building to improve project quality.
4	Design-stage grants	Transaction design or preparation is grant-funded (including project preparation or design-stage grants). The concessional fund is used for designing projects to attract private funds from institutions.

### PROMOTING 4 CROWDFUNDING BUSINESS MODELS IN ASIA

Business Models	Uniqueness and Description	Investment Instrument	Targeted Investors	Purpose/ Orientation	Region Scope
Within Country Crowdfunding	Prioritizes domestic funding for domestic infrastructure projects	<ol> <li>Debt</li> <li>Bond</li> <li>Equity</li> <li>Cooperative</li> <li>Donation</li> <li>Reward</li> </ol>	<ol> <li>Domestic individuals Institutional investors</li> </ol>	Combination of: 1. Social so- called impact investing for people and the planet 2. Commercial	Within individual Asian countries
Commercial Infrastructure Financing	Commercially oriented. The main goal is to raise capital for commercially viable infrastructure projects and to provide an attractive financial return for investors.		<ol> <li>Individuals around the world.</li> <li>Private Institution investors</li> </ol>	Mostly commercial	Asia
Cross-border Citizen Funding	The concept is raising small capital from a large number of citizens from all Asian countries to fund infrastructure project in Asia. In short, the concept is "From Asia for Asia"		2. Mostly Individual citizen of Asia	Combination of social and commercial	Asia
Blended Finance	Funding from public investors and philanthropic institutions acts as concessional capital.	<ol> <li>Grant, in the form of:         <ul> <li>a. Concessional capital</li> <li>b. Guarantee/ insurance</li> <li>c. Technical assistance</li> <li>d. Design stage</li> </ul> </li> <li>2. Debt</li> <li>3. Equity</li> </ol>	<ol> <li>Philanthropic Institutions</li> <li>Public investors consisting of:         <ul> <li>Asian countries government</li> <li>Multilateral Institution such as ADB, USAID, OECD, etc.</li> </ul> </li> <li>Private Institutions</li> </ol>	Mostly social that is mixed with commercial purposes for private institutions.	Asia

#### ROADMAP OF CROWDFUNDING DEVELOPMENT IN ASIA FOR INFRASTRUCTURE PROJECT FINANCING

1.

Supporting domestic crowdfunding platform with social and environmental purposes **2.** Promoting infrastructure project crowdfunding platform for commercial purposes **3.** Form a network and crowdfunding platform of blended finance in Asia

**4.** Establish Asian Crowdfunding

Network

5.

Setup an Asia cross-border crowdfunding regulation 6.

Promoting cross-border crowdfunding platform for infrastructure project financing in Asia
